

Special Application Gauges

Medical Equipment Gauges

DESCRIPTION

U.S. Gauge Medical Equipment Gauges include pressure gauges designed and manufactured for a variety of medical applications, such as angioplasty inflation devices, anesthesia equipment, medical regulators, respiratory equipment, dental systems, and many other applications. U.S. Gauge has over 95 years experience providing quality pressure gauge solutions for OEM customers, with over 25 years of successful service meeting the rigorous demands of the medical industry. An overview of our medical gauge product line is at the right. Please contact Product Marketing for more detailed information at (215) 355-6900.
